No A6 c 1127/45-46 & 20/5/46

it is the report called for

12) This relates to the execution of a water supply improvement scheme in the Srra Taluk at an estimated cost of Rs 10,000 The estimate has been scrutinised by the chief Engineer for Irrigation & is found to be in order

The scheme is proposed to be financed by the govt & the local bd in equal proportions in order to enable the bd to meet its share of the cost, a loan of Rs 5,000 repayable in 5 annual instalments is prayed for

13) In this connection, it is submitted that at the financial position of the Sona Tank bd is not satisfactory - Vide figures in the margin During the current year, a sum of Rs 2,500 from out of T I grant for the construction of a culvert and a sum of Rs 3,126/- for two thirds half the cost of sinking two wells have been sanctioned to the Sona Tank bd The work now proposed to be taken up at a cost of Rs 10,000 is reported to be independent of the one

	Rs
Re	39,189
Exp	31,549
C B	7,640

towards the cost of which, govt have given a sum of Rs 3126/- as referred to above

14) In the above circumstances govt's orders are —

1) Sanction to an estimate for Rs 10,000/- for water supply improvement work at Sira, the cost being met by the govt & the local bd in equal proportions

2) Sanction to a govt grant of Rs 5,000 from out of the balance available under water supply grant for the year 45-46

3) Sanction to the grant of a loan of Rs 5,000 repayable in five annual instalments to the Sira Town bd to enable them to meet their share of the cost of the work ~~the~~ the interest at the rate of 4% pa may perhaps be charged on the loan to be granted. Financial secretary may be consulted on the grant & the loan

1176/L Sira water supply

6 Kind reference is invited to the Fstimate, flagged "J" The estimate is mèrely for sinking four bore-wells So the loan that we are granting would be merely for sinking bore-wells and this will not enable the town to get additional water unless necessary machinery is installed for pumping water, i e , provision is made for installing the necessary machinery for ~~purposes~~ pumping water and for distributing it Again the estimate says that the cost for each bore-well is Rs 2,500 and for 4 bore-wells, it will be Rs 10,000 while in the letter dated 12th March 1946, from the Deputy Commissioner, Tumkur, it is stated that a trial bore-well will cost Rs 10,000/- So four bore-wells would cost 40,000 Granting that four- bore-wells are sunk at a cost of Rs 10,000, the question of cost of installation of necessary machinery for pumping water and distribu tion of pipe lines would necessarily arise The resolution is silent as to how this expenditure is to be met

7 In these circumstances I am afraid the proposals are incomplete and unless both the Government and the Municipality are aware of the commitment any order passed would require revision

24/7/47

10135/mb

Improvement of Water Supply to Sri Lanka

47) The present proposals of the D C is for sinking four additional wells in Sri Lanka at a cost of Rs 10 000/, to be shared between Govt and the local municipal Council in the proportion of 50 50 the Municipal share being granted as a loan repayable in five annual instalments

48) The financial Secy at para 26 of the notes supra opined that the loan even if granted for merely sinking the tube wells, would not enable the necessary machinery being installed for pump of water, which question would arise at a future date, and as such, the proposal would be incomplete unless Govt and the Municipalities were aware of their respective Commitments

49) The approximate cost of installation of the machinery on the basis of a 6000 gals per hour Yield of water from four wells as worked at Trincomalee by the Secretary of Engineers which amounts to Rs 75000/ as detailed below -

50) The points for orders now are

1) Sanctioning the estimate for Rs 10000/ towards the sinking of four tube wells in Sri Lanka municipality

2) Sanctioning a Govt grant of Rs 5000/ for the purpose from out of 75 grants

10135/mL

Improvement of water Supply to Sira Town

3) Sanctioning a loan of Rs 5 000/ to the Municipality to meet its Share of cost Repayable in five equal annual instalments The maximum Rate of interest percussible is 4/

5i) The abstract figures of the budget Estimates of the Sira Town municipality for 47-48 are as follows

Opening Balance		Rs 25 872/
Receipts	—	Rs 29 655/
	Total	Rs 55,527/
Expenditure	-	Rs 36 493/
closing Balance	-	Rs 19 034/.

52) The question of installation of pumping machinery etc which depends on the actual yield of water from the wells may perhaps be considered later Separately

quite so Jmy

53) Seals for orders

Rao 7/1/48 54) If town wells are dug at a cost of Rs 10 000/- this will have to be followed up by installation of the pumping machinery, which is expected to cost another Rs 75 000/-, as the bore wells by themselves will not solve the water Scarcity problem

55) The former Minister for Rev & Commerce decided to discuss this question with the Sira Town Muni Council (Vide para 46)

Rao 8-1-48

58) The Minister for L & Dev was pleased 10/35/mf 643 WL
to ask that the file may be put-
up for orders

57) The facts of the case are noted
at paras 47 to 52 of the notes
above

58) A grant of Rs 5000/- may therefore be
sanctioned out of the unallotted grant-
during the current year A balance of Rs
Rs 3,18,578 is available under this
Head out of the provision of Rs 5 lakhs
made in the State Budget for 1947-48

A

59) The loan of Rs 5000/- applied for by the Rs
Zamindar may also be sanctioned, the
same being made repayable in five
annual instalments carrying interest at 4% p.a.
per annum The Dy Tahsildar will be
required to make the necessary provision in
the annual Budget of his office towards the
repayment of the loan

B

60) The point for orders is whether the estimate for
Rs 10000/- may be sanctioned, even though the
likely balance be a further Commitment of Rs 7500/-
to install pump sets

Newsey Jr
8/11/47

61) The proposal put forward is as an experimental measure and it is said to be an urgent one

62) Hence the estimate for Rs 10,000 may be sanctioned and also the grant & the loan as proposed in paras 58 & 59 supra (A+B)

63) The Financial Secretary will also be consulted

Sir,

Subject:- Water Supply scheme to Sira Town-sinking of a bore-well -an experimental measure- Government aid thereof

===

I have the honor to enclose herewith the correspondence ending with the Madhigiri Sub Division Officer's No A2 C 366/94 of 45-46 on the above subject and to state as follows -

The President, Sira Town Municipality reports that the town has a population of over 10,000 and that almost all the wells in the town have dried up and some of them have begun to fail As a consequence there is scarcity for drinking water to the townsmen It is further stated that water has to be got with difficulty from about a mile distance Deepening of the existing wells are reported to be of no use as the springs which actuate these wells are themselves dry and the Municipal Council could do no more to mitigate the water scarcity

The Municipal Council have resolved to take up a comprehensive water supply scheme at an estimated cost of Rs 66,000/- but at present they have resolved to take up the work of sinking a bore-well as an experimental measure, estimated at about Rs 10,000/- As their esources of the Municipality have been spent on the Municipal High school and the funds at its credit is meagre, they have resolved to request a Government grant of Rs 5,000/- and the remaining Rs 5,000/- may be met out of the Municipality As there is only Rs 6116/- at its credit, the sum of Rs 5,000/- may kindly be sanctioned as loan to the Municipality

Municipality repayable in five annual instalments of Rs 1000/-

In view of the urgency of the situation, I have drawn today a sum of Rs 2000/- out of Rs 10,000/- sanctioned under Distress Relief works and placed this sum at the disposal of the Sanitary Engineer requesting him to start the bore-well work immediately as it is apprehended that there would be total failure of the few wells in the town due to summer, I request that my action may kindly be approved

I also request that sanction of Government may kindly be obtained to the Government grant of Rs 5000/- for water supply and a loan of Rs 5000/- to this Municipality

I have the honor to be,
sir,
Your most obedient servant,

Deputy Commissioner,
Tumkur District

From

Mir Safdar Hussain, Esq , B A ,
Deputy Commissioner,
Tumkur District, Tumkur

To

J B Mallaradhya, Esq , M A ,
Secretary to the Government of Mysore,
Revenue Department, Bangalore

Sir,

Subject - Water supply scheme in Sira Town

With reference to your D O letter No L 12368 W R dated 9th May 1946 enquiring whether the bore-well work proposed to be taken up at an estimated cost of Rs 10,000/- at Sira is independent of the work towards which a grant of Rs 3126/- has been sanctioned already, I have the honor to state that the Town Municipal Council Sira intends to appropriate the grant of Rs 3126/- sanctioned for sinking two new wells one in the Ashur Mohalla block and the other in new extension and for deepening other existing wells which are since dried up

As such the work proposed to be taken up at an estimated cost of Rs 10 000/- as an experimental measure is quite independent and exclusive of the work for which Government grant of Rs 3126/- has been sanctioned

I therefore request that Government grant of Rs 5000/- and a loan of Rs 5000/- are necessary for the proposed work as already recommended and the same may kindly be sanctioned

The records are herewith enclosed

I have the honor to be,
sir,
Your most obedient servant,

(Continuation sheet draft form)

To,

The D/c Thanjavur

Sir,

With reference to the correspondence ending with your letter No A6/c 1127/45 dt 3/8/46 re water supply to various work at Sea, I am directed to observe as follows —

The estimate for Rs 10,000 which is reported to be for metal sinking for bore-wells will not enable the Town to get additional water unless necessary machinery is installed for pumping water as necessary provision for installing machinery is made for pumping water and for distribut

WD 0282—GPB- 22 500—14 3 38

t in the said estimate

It is stated in your letter of 12/3/46 on the subject that the cost of a bore well to be sunk as an experimental measure would amount to Rs 10,000 of this Rs 1/50, the cost of the estimate for sinking four bore-wells would amount to Rs 40,000. and then there will be increase in the cost of the question of installing a pumping unit is taken up, It is not clear either from your report or from the resolution of the Board as to how the cost would be met

In the above circumstances, the exact cost for sinking four bore-wells together with information and to whether it is not desirable to make provision in the estimate for installing machinery and for pumping water in the estimate may kindly be intimated ~~reported~~ to us very early

Records accompany for ✓
reference & return

Thanking
Yours

Sir,

With reference to your letter No L4921/R ml 45-46-18 dated 12-10-46 calling for certain particulars regarding the water supply Improvement works, I have the honour to enclose herewith a copy of the letter No 388 dated 12-11-46 received from the Sanitary Engineer, Bangalore and also the letter No H C 51/45-46 dated 12-11-46 with its enclosure received from the President, Town Municipal Council, Sira and to state that sanction for both grant and loan for sinking bore wells may kindly be obtained as already requested since the Sanitary Engineer states that the installation of machinery for pumping and distribution of water has to be taken up only after the yield of the bore wells is tested
